I wanted to be seen, but then I realised... I no longer want to go through the things I used to subject myself to.

Is it a symptom of change? I hope so.

As I was eating a kebab, I went through dating apps, swiping left and right. But why?

I noticed that every time I see someone slightly interesting, I close the app.

I wanna run. Run from here. Run from me.

What would I leave behind?

What I want to run from I can’t.

I already tried to rip this off me. I tried to scape, took more planes than I can count.

I also tried the basics: to drown it in water, numb it with drugs, and purge it with tears. No success....

GET OUT!!!

Get out of me, pain. Leave, emptiness.

How to expel the emptiness though? How to take something that literally is not there and take it away?

I can’t even bury this. Fuck.
